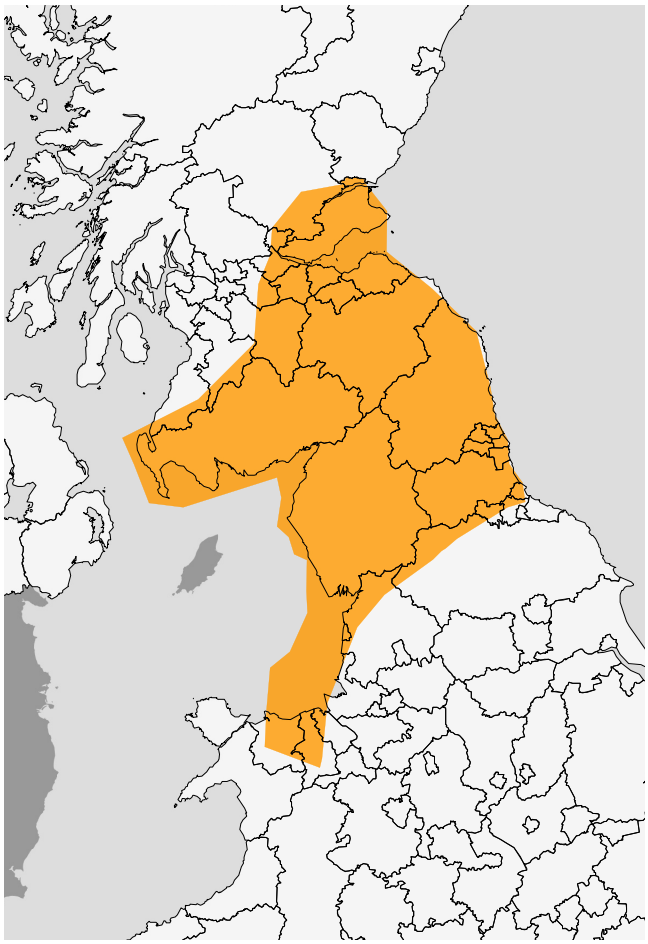
Amber warning
Extreme Heat

Between
00:00 Mon 18 Jul 2022 and
23:59 Tue 19 Jul 2022



Hot weather continues during Tuesday with a risk of widespread impacts on people and infrastructure.

What to expect

- Adverse health effects are likely to be experienced by those vulnerable to extreme heat. Government advice is that 999 services should be used in emergencies only; seek advice from 111 if you need non-emergency health advice.
- The wider population are likely to experience some adverse health effects including sunburn or heat exhaustion (dehydration, nausea, fatigue) and other heat related illnesses
- Some changes in working practices and daily routines likely to be required
- An increased chance that some heat-sensitive systems and equipment may fail, potentially leading to localised power cuts and the loss of other services to some homes and businesses
- More people are likely to visit coastal areas, lakes and rivers leading to an increased risk of water safety incidents
- Some delays to road, rail and air travel are possible, with potential for welfare issues for those who experience prolonged delays

Amber warning
Extreme Heat

Between
00:00 Mon 18 Jul 2022 and
23:59 Tue 19 Jul 2022

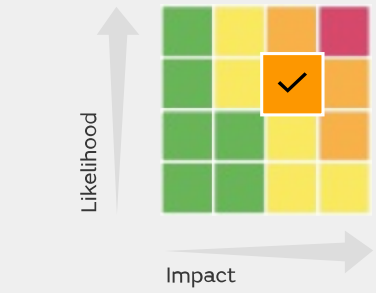
Further details

After a very warm night, high temperatures are expected again on Tuesday.

Some exceptionally high temperatures are possible, bringing widespread impacts to people and infrastructure, before a change to somewhat cooler conditions overnight.

Reason for update

The hot air is now moving away eastwards with temperatures falling away from their very hot peak. The warning has therefore been removed from southwest England and much of Wales.



Medium likelihood of medium impacts
